Denna is a digital application that acts as a reminder of all your plans and goals. Use it to plan out your day, set appointments and create reminders for yourself. Denna tracks your progress in terms of tasks completion and allows you to check the last time you became more organized or if you need to gain more discipline. You can add tasks and appointments with easily, and you can also choose to add a deadline to them, if required. You can also create a digital planner that will be accessible from your phone, at any time. For all your plans and tasks, Denna will have a separate chat room so that you can communicate with each other. More so, the app is a great way to communicate with your friends, family or anyone else who may share your interest in organization. You can use it to share/remind them about your plans, schedule and goals. Business Description: Largest Non

By providing comprehensive information on L1A and bilingual education, we help to dispel many myths and misconceptions regarding the

---

various types of foreign language training, the places that you can enroll in, and the various classes available. On the other hand, if you don't feel like taking out an ad, just write a comment and answer my questions. I'll be more than glad to get some feedback. A: When I first saw the title I was thinking more along the lines of a professional networking site, like a LinkedIn. This answer here would therefore make a lot more sense. :D I would consider it a kind of social network where you can meet with other people and share interests, more like a private social network than a 09e8f5149f

Many plans are lost to oblivion. Denna is an application that looks over your schedule, reminders, plans and keeps it all neatly organized and within a distance of eye view. Reminders. The reminder feature has an excellent swipe left or swipe right but not away or up or down gesture, just directly swipe it off the screen to dismiss it, the reminder will remain in the notifications widget. You needn't worry about losing the notification just swiping it off the screen that will leave it in the notifications widget. Automatic program execution When you tell Denna that something needs to be done when you are away from your computer, Denna program will take care of the job for you, right from recognizing the right size of email to scheduling the task. How you chose it to be done, Denna will ask you how you would

---

prefer it to be done. Some may want to be spammed with emails when that event occurs, others may want the notification to appear in the notifications widget. How would you prefer the app to be notified? Denna can handle so many things, from simple email or text notification, to sending you a message when something is scheduled. It is important to understand that in order to send you any of these notifications, it is required that your email address be configured in the settings so that the app can send you these messages. Allow you to send messages directly to your email. But what about voicemail notifications? This is something that is supported by Denna. If your phone's voicemail is configured, you will receive a notification when your tasks are to be accomplished. Get alerts for important events The notifications widget serves as a great way to get alerts for things you need to be aware of. It is the perfect way to keep track of important things such as

---

bills, deadlines and emergencies. Denna is also capable of sending a message directly to your phone or email when a specified event occurs. You can also manage your reminders and tasks from anywhere using the autoexec mode.

Automatically send reminders and notifications  
You only need to tell Denna once that you wish for a reminder to be sent to your device and it will be done automatically whenever something is planned on your task list. Denna will then verify if the time for the reminder to be sent is available. If it is, a new notice will be sent with the reminder included. In order to make sure
