As Tony Stark's world is torn apart by a fearsome terrorist called the Mandarin, he embarks on an odyssey of restoration and retribution. Tony faces his biggest challenge yet in the second full trailer for Marvel's Iron Man 3. While Iron Man 3 isn't supposed to be available for preview until Thanksgiving, the movie has actually already premiered live. But, if you don't see the trailer, you're out of luck. Even though the film was shown live, we will probably never get a trailer until then. Therefore, we have to be content with the short excerpts that I showed you earlier. If you don't know what that is, I'll quickly explain what it is.
