The player is written in C++. External links TinyMedia See also MPlayer Category:GNOME Applications Category:Free multimedia software Category:Free media playersThe present invention relates to a new and distinct cultivar of New Guinea Impatiens plant, botanically known as Impatiens hawkeri, and hereinafter referred to by the name 'Dueallimetason'. The new Impatiens is a product of a planned breeding program conducted by the Inventor in Rheinberg, Germany. The objective of the breeding program is to create new freely-flowering New Guinea Impatiens cultivars with large and attractive flowers. The new Impatiens originated from a cross-pollination made by the Inventor in July, 2003 in Rheinberg, Germany of a proprietary selection of Impatiens hawkeri identified as code number F-20-09, not patented, as the female, or seed, parent with a proprietary selection of Impatiens hawkeri identified as code number F-18-19, not patented, as the male, or pollen, parent. The new Impatiens was discovered and selected by the Inventor as a single flowering plant within the progeny of the stated cross-pollination in a controlled greenhouse environment in Rheinberg, Germany in September, 2004. Asexual reproduction of the new Impatiens by terminal cuttings in a controlled environment in Rhe
