In simple words, maintop dsg is a cloud based transcription system. MainTop consists of user console and software.NEW YORK (AP) — Federal authorities have charged a New York City man with submitting phony claims for a $2.5 million fake-bid scheme that included two bids for a $2.3 million cash-in-transit van the man had stolen. The charges filed Monday in Manhattan include wire fraud, mail fraud, and other counts. The 47-year-old man faces a maximum of 20 years in prison if convicted on all counts. The New York Post says the man has a long criminal record, including convictions for stalking, grand larceny, and a fraud conviction in Florida in 2006. The FBI says the latest charges involve a bid on a used transit van. The man allegedly submitted fake sales records and invoices to the auction house to ensure that the van was sold as his rather than that of a thief.Q: Deleting in a java hashmap I'm making a program that reads information from a text file (this is part of it) and than inserts it in a hashmap. the problem is when i'm trying to delete a value(String) from the hashmap and then i'm looking for it, the program isn't searching(loop is ending). Can you tell me what am i doing wrong? i'm using an iterator(i=) for a loop. Thanks in advance public void clearHashMap() { Iterator iterator = valuelist.iterator(); 6d1f23a050
