Security software may be our first priority, but theres more to our software. Avira Antivirus Pro 2015 can also detect and block suspicious activity - keeping even the most audacious hackers off your device and out of your life. Our developers see the future and take chances on products that they are sure will be used for years to come. Avira Antivirus Pro 2015 is just such a product, bringing you the same features youve always used, in a new, stylish, app, that gives you the security you need Avira Antivirus Pro 2015 stands out from the crowd with the ability to detect and block malicious activity. This feature is a boon for savvy users who dont want to rely on the software they run to keep their device safe. This feature, which Avira calls the Avira Antivirus Engine, lets it scout the web for suspicious links, quickly scan them and then notify its users of any malicious activity. The engine needs no user interaction and does its job while youre doing something else. Whether youre banking on-line or walking through a shopping mall, you want to make sure your data is protected and your bank account is secure. You need security software thats robust and efficient and that you can trust. Avira Antivirus Pro uses advanced algorithms to scan your device as well as the applications you install on it. Avira Antivirus Pro 2015 keeps your data safe by scanning your device. Youll also receive alerts about activity on your device and the software on your device that might threaten the security of your online banking activity, your email account, your social media accounts or your shopping activity.
